

Post work Independence Day

Have students write a paper comparing and contrasting the following clichés:

There's no place like home.

Home is where the heart is.

You can never go home again.

Have them chose one that most suits them and explain why.

Have students bring a real estate or apartment ad with them to school. Have them tabulate a working budget including groceries, based on current minimum wage. Have them then brainstorm on how they could make ends meet.

Have students create a poster or banner that displays what independence means to them.
